11 November 1974

NRO REVIEW COMPLETED

MEMORANDUM FOR: Director, NPIC

SUBJECT : Procurement and Maintenance of PI
Equipment for [REDACTED]

25X1A

REFERENCE : Facility Requirements for the COMIREX
Representative, EXSUBCOM, and the
Consumer Support Center at the [REDACTED]
Processing Facility, November 1972,
[REDACTED]

25X1A

25X1A

1. The referenced COMIREX document is a supplement to the NPIC Facilities Requirements document [REDACTED]. The NPIC document was prepared at the request of the Deputy Director, Office of Special Projects. This OSP request also indicated that it would facilitate planning if NPIC would serve as the executive agent for consolidating and transmitting all user-community facility requirements.

25X1A

2. As indicated in the COMIREX document, the Consumer Support Center at [REDACTED] will contain a "CSC Task Force Area" suitably equipped for use by PI/analyst teams. The teams will respond to unique high priority time-sensitive departmental intelligence needs -- particularly during crisis situations.

25X1A

3. It is therefore requested that NPIC procure as a service of common concern, or request procurement as executive agent for the user-community, high quality light tables and microstereoscopes for use at the four PI stations in the CSC Task Force Area.

4. To provide adequate control and maintenance of this costly and sensitive equipment, we suggest that the light tables be installed in the CSC area but that the microstereoscopes be held in the NPIC detachment area and be individually issued to departmental PI's on an as required basis.
